

### **Major Outcomes of TIDE Scheme:**

- Till December 2015, 155 start-ups incubated under the scheme.
- Till August'14, 228 products have been developed by 121 startups. Out of 228 products, there are 171 software products and 57 hardware products and 20 patents were registered by the startups.
- 29 number of patents granted to the start-ups indicates their existence in technological innovation and global competitiveness. It encourages the development of indigenous product & packages and bridging the gap between R & D and commercial viability of the product(s).
