OFFICE MEMORANDUM

Policy on Linguistic Resources

Under Technology Development for Indian languages (TDIL) Programme, Ministry of Electronics & Information Technology (MeitY) has been sponsoring development of linguistics resources for Indian languages at various academic institutions/R&D centers. So far, the resources were being made available only to the Indian academic researchers free of cost. In order to promote the development of IT solutions in Indian languages, it has been decided to provide the resources to various entities at the following rates:

Category	Rate
Indian Academic Researchers	Free
Startups	Free
MSMEs	10% of cost
International Academic Researchers	10% of cost
Big Companies/MNCs/Foreign Entities	50% of cost

The cost refers to the cost of creation of the resource at the current rates. The resources would be made available through C-DAC which will retain 10% of the cost as facilitation charge. The contact person for queries related to this policy will be Head, GIST Group CDAC Pune, Tel: 020-25503495, Email: mdk@cdac.in. While the resources are being made available to the Indian academic researchers and startups free of cost, they would be required to sign suitable non-disclosure agreement with the facilitating agency i.e. C-DAC.

This issues with the approval of the Competent Authority and will come into force with immediate effect.

24/5/2019

(D. K. Sagar)
Deputy Director
